FOREWORD

The Illinois State Board of Education is pleased to make available a listing of Illinois Public School Districts and Schools for the 1980-81 school year.

The purpose of this publication is to provide an annual, updated listing of all school districts and schools within the State of Illinois, in region, county, and district order. We have also included the district and school name, code number, administrator's name, and telephone number.

Shown on page ii is a map of the State of Illinois, showing the five Illinois State Board of Education Program Service Team Regions by county. Names and telephone numbers of contact persons for each Program Service Team are provided for your convenience in requesting assistance.

Questions concerning this listing may be referred to Mr. Charles Stoeckel, Statistician, Research and Statistics Section, Illinois State Board of Education, at 217/782-3950.

A handwritten signature in cursive script, reading "Donald G. Gill".

KEY TO THE CODING OF SCHOOL DISTRICTS AND SCHOOLS

The following key to the coding of school districts and schools was used to assign a code number to each district and school:

1. Region codes--a two digit code number commencing with 01 and continuing through 57 has been assigned to the 102 counties, with the counties being listed under their respective region in alphabetical order. There are two additional region codes: Region 60 is assigned to the Department of Corrections School District and Region 65 is assigned to Other State Funded Public Schools.
2. County codes--a three digit code number commencing with 001 and continuing through 102 has been assigned to the 102 counties in alphabetical order. There are two additional codes: Number 105 is assigned to the Department of Corrections School District and number 108 is assigned to Other State Funded Public Schools.
3. District number codes--a four digit code number has been used to include the present legal school district number.
4. District type codes--a two digit number has been assigned in accordance with the following list to identify the type of each district:

<u>ELEMENTARY</u>	<u>HIGH SCHOOL</u>	<u>UNIT</u>
01. Common--1 Teacher	13. Consolidated	22. Old Type
02. Common--Other	15. Charter	24. Community Consolidated
03. Consolidated	16. Community	25. Charter
04. Community Consolidated	17. Township	26. Community Unit
05. Charter	18. Protectorate	
	19. Nonhigh	

5. School codes--a four digit number has been assigned to each school. The first digit indicates the kind of school, the last three digits indicate the number assigned to that school. Following is a list of the kinds of schools:

0--high school
1--junior high school
2--elementary school
3--special education school

District and school codes: The complete number uniquely identifying each school district in the State of Illinois is an eleven digit number formed by consolidating the region, county, district number, and district type codes, in the order named. The unique school code contains a fifteen digit number including the eleven digit district code and the four digit school code.

FOREWORD

The Illinois State Board of Education is pleased to make available a listing of Illinois Public School Districts and Schools, Special Education Cooperatives, and Area Vocational Centers for the 1981-82 school year.

The purpose of this publication is to provide an annual, updated listing of all school districts and schools within the State of Illinois, in region, county, and district order. We have also included the district and school name, code number, administrator's name, and telephone number.

Shown on page iii is a map of the State of Illinois, showing the five Illinois State Board of Education Program Service Team Regions by county. Names and telephone numbers of contact persons for each Program Service Team are provided for your convenience in requesting assistance.

Questions concerning this listing may be referred to Mr. Charles Stoeckel, Statistician, Research and Statistics Section, Illinois State Board of Education, 217/782-3950.

Donald G. Gill
State Superintendent of Education

KEY TO THE CODING OF SCHOOL DISTRICTS AND SCHOOLS

The following key to the coding of school districts and schools was used to assign a code number to each district and school:

1. Region codes--a two digit code number commencing with 01 and continuing through 57 has been assigned to the 102 counties, with the counties being listed under their respective region in alphabetical order. There are two additional region codes: Region 60 is assigned to the Department of Corrections School District and Region 65 is assigned to Other State Funded Public Schools.
2. County codes--a three digit code number commencing with 001 and continuing through 102 has been assigned to the 102 counties in alphabetical order. There are two additional codes: Number 105 is assigned to the Department of Corrections School District and number 108 is assigned to Other State Funded Public Schools.
3. District number codes--a four digit code number has been used to include the present legal school district number.
4. District type codes--a two digit number has been assigned in accordance with the following list to identify the type of each district:

<u>ELEMENTARY</u>	<u>HIGH SCHOOL</u>	<u>UNIT</u>
01. Common--1 Teacher	13. Consolidated	22. Old Type
02. Common--Other	15. Charter	24. Community Consolidated
03. Consolidated	16. Community	25. Charter
04. Community Consolidated	17. Township	26. Community Unit
05. Charter	18. Protectorate	
	19. Nonhigh	

5. School codes--a four digit number has been assigned to each school. The first digit indicates the kind of school, the last three digits indicate the number assigned to that school. Following is a list of the kinds of schools:

0--high school
1--junior high school
2--elementary school
3--special education school

District and school codes: The complete number uniquely identifying each school district in the State of Illinois is an eleven digit number formed by consolidating the region, county, district number, and district type codes, in the order named. The unique school code contains a fifteen digit number including the eleven digit district code and the four digit school code.

FOREWORD

The Illinois State Board of Education is pleased to make available a listing of Illinois Public School Districts and Schools, Special Education Cooperatives, and Area Vocational Centers for the 1982-83 school year.

The purpose of this publication is to provide an annual, updated listing of all school districts and schools within the State of Illinois, in region, county, and district order. We have also included the district and school name, code number, administrator's name, and telephone number.

Shown on page ii is a map of the State of Illinois, showing the 102 counties, plus the addresses and telephone numbers of our three offices.

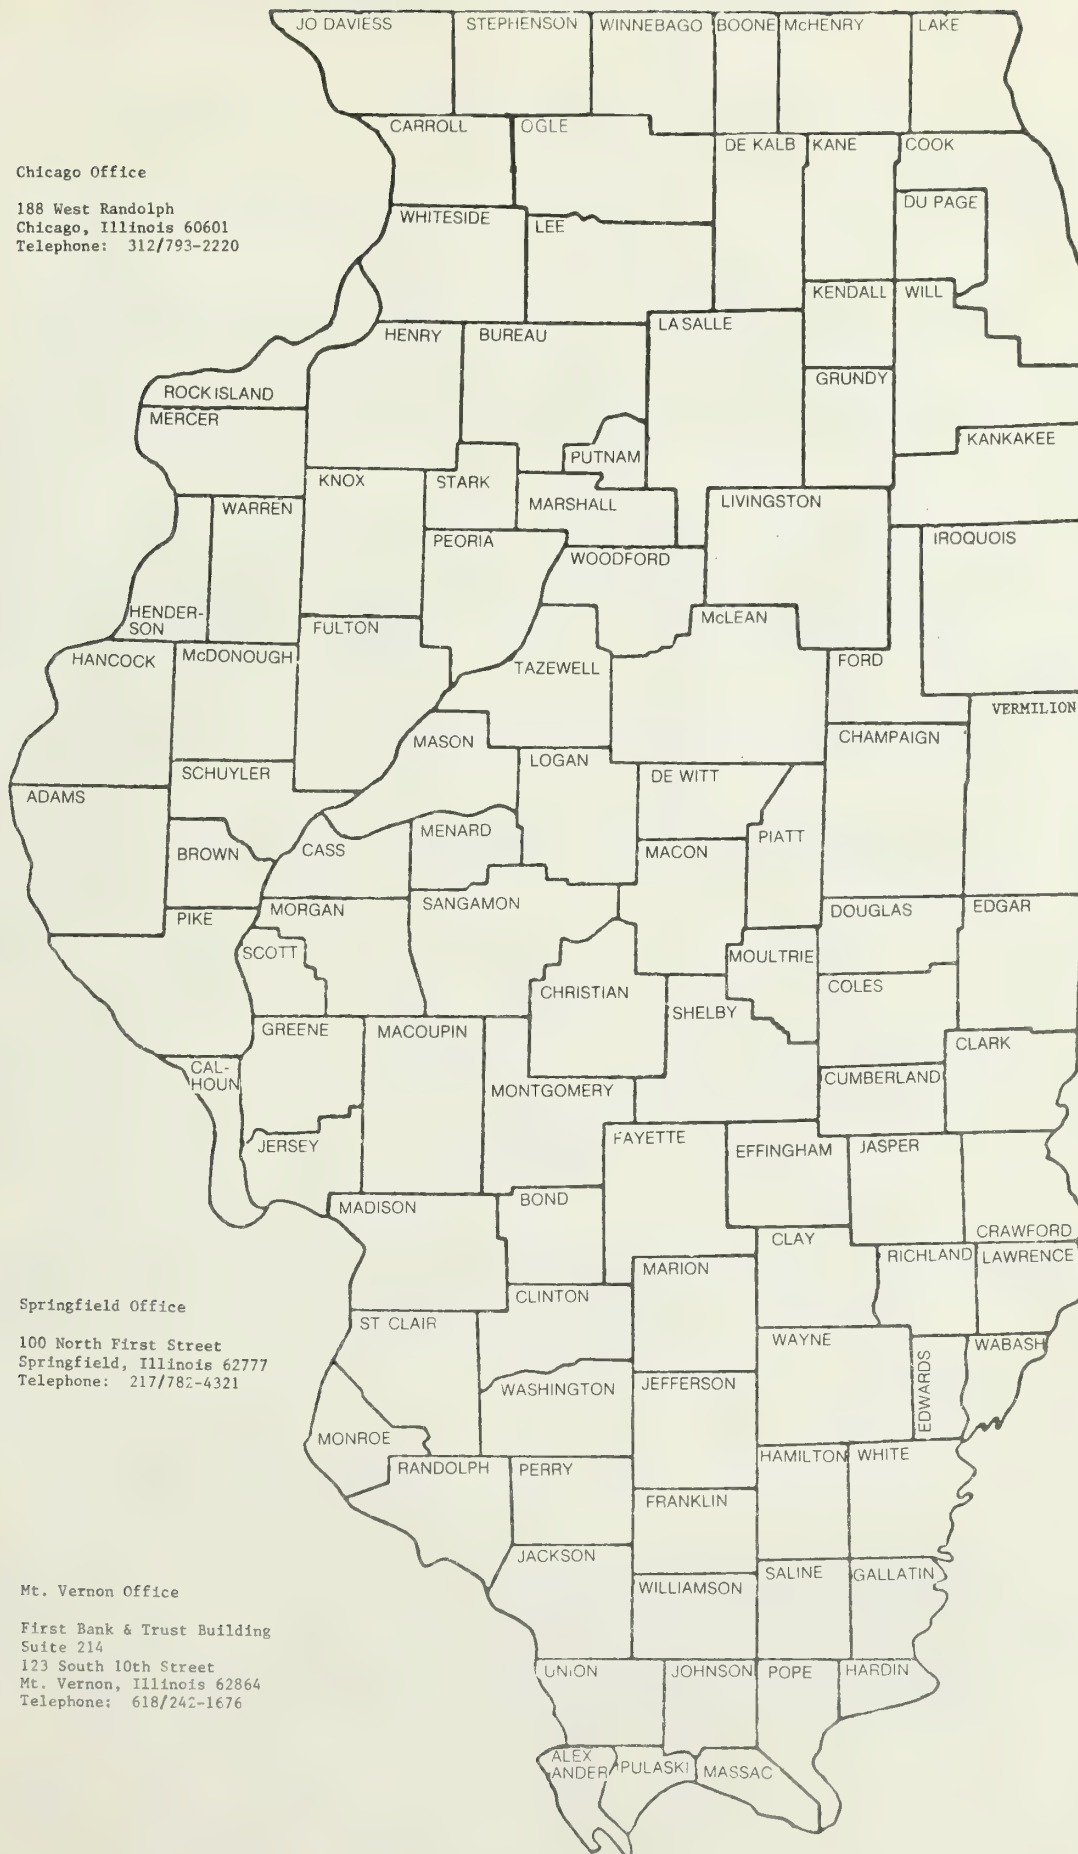

Questions concerning this listing may be referred to Mr. Charles Stoeckel, Statistician, Research and Statistics Section, Illinois State Board of Education, 217/782-3950.

KEY TO THE CODING OF SCHOOL DISTRICTS AND SCHOOLS

The following key to the coding of school districts and schools was used to assign a code number to each district and school:

1. Region codes--a two digit code number commencing with 01 and continuing through 57 has been assigned to the 102 counties, with the counties being listed under their respective region in alphabetical order. There are two additional region codes: Region 60 is assigned to the Department of Corrections School District and Region 65 is assigned to Other State Funded Public Schools.
2. County codes--a three digit code number commencing with 001 and continuing through 102 has been assigned to the 102 counties in alphabetical order. There are two additional codes: Number 105 is assigned to the Department of Corrections School District and number 108 is assigned to Other State Funded Public Schools.
3. District number codes--a four digit code number has been used to include the present legal school district number.
4. District type codes--a two digit number has been assigned in accordance with the following list to identify the type of each district:

ELEMENTARY

HIGH SCHOOL

UNIT

- | | | |
|----------------------------|------------------|----------------------------|
| 01. Common--1 Teacher | 13. Consolidated | 22. Old Type |
| 02. Common--Other | 15. Charter | 24. Community Consolidated |
| 03. Consolidated | 16. Community | 25. Charter |
| 04. Community Consolidated | 17. Township | 26. Community Unit |
| 05. Charter | 18. Protectorate | |
| | 19. Nonhigh | |

5. School codes--a four digit number has been assigned to each school. The first digit indicates the kind of school, the last three digits indicate the number assigned to that school. Following is a list of the kinds of schools:

0--high school
1--junior high
2--elementary school
3--special education school

District and school codes: The complete number uniquely identifying each school district in the State of Illinois is an eleven digit number formed by consolidating the region, county, district number, and district type codes, in the order named. The unique school code contains a fifteen digit number including the eleven digit district code and the four digit school code.
